Another Big Warehouse.

It is to be a six-story building and will cost not less than \$35,000. Steele & Co. take it on a three years' lease at \$7,000 a year.

State Breeders.

President Mount, of the Omaha Fair and Exposition association, and also president of the Nebraska State Breeders' association, which holds its fifth annual meeting at Hastings this week, left for that city last evening to be present at the event. Mr. Mount stated that judging from the list of entries, this would be the most successful meeting yet held.

Pears is the purest and best soap ever made.

O'Keefe Will See About It.

Councilman J. McMillan and Ed Johnson, of South Omaha, met the county commissioners yesterday afternoon and tried to persuade the latter that it would be all right to give up \$4,000 of the county's money to help the Magic City do her grading.

The street to be graded is L. from Thirty-sixth to Twentieth. Mr. O'Keefe was not certain that it would be well to give the appropriation asked for and refused to promise anything until he fully understood the matter.

Heinrod's Protest.

"I don't like the way the electric light companies are treating us regarding Merchants' week," said Lewis Heinrod yesterday morning. "We want our arches illuminated with 500 electric lights and we furnish wire and power and they take the lights when we get through with them. The New York Life, The Bee and Dr. Mercer give us the power free but the electric light folks want \$100 for 500 lights. I think it is an outrageous price and do not believe in paying it. Why these companies that want to knock out the gas companies should charge that much I cannot see. It seems to me that they would want to advertise their business and would be satisfied at cost price."

The Sacred Heart academy, for day pupils, situated on St. Mary's avenue and Twenty-seventh streets, is an institution devoted to the moral and intellectual education of young girls. The course includes everything from a preparatory department to a finished classical education. Besides the ordinary academic course, music, painting, drawing and the languages are taught. French is included in the ordinary course.

Difference of religion is no obstacle to the receiving of pupils, provided they conform to the general regulation of the school. The scholastic term begins the first Tuesday of September. Classes commence at 9 a. m. and are dismissed at 3:30 p. m., an hour for recreation being allowed.

BURIED THEM UNDER A BANK.

Two Men Crushed by Falling Earth in North Omaha.

Between 11 and 12 o'clock yesterday forenoon, while workmen were excavating for the cellar wall for the Brandes' building, N and Twenty-fourth streets, South Omaha, the bank caved in, burying Fred Wilson and John Blazek.

Mr. Blazek was not taken out of his position for nearly five minutes and received injuries which may prove fatal. He complained of injuries in the small of the back and showed injuries about the head. It is probable his spine is injured.

Mr. Blazek is a single man and boarded with John Karnak, on the corner between N and O and Twenty-third and Twenty-fourth streets, where a surgeon attended him.

Fred Wilson was injured in the pit of the stomach and abdomen and complained of injuries to his legs. He was removed to the McGuckien hotel, Twenty-sixth and Q streets.

Vitality and Vigor

Are quickly given to every part of the body Hood's Sarsaparilla. That tired feeling is entirely overcome. The blood is purified, enriched and vitalized. The carrier of health instead of disease to every organ. The stomach is toned and strengthened, the appetite restored. The kidneys and liver are roused and invigorated. The brain is refreshed, the mind made clear and ready for work. Try it.

Mr. Coots Talks.

Mr. John P. Coots was seen yesterday by a reporter in reference to an article which appeared in the morning papers relating to the superintendent of the county hospital.

Said Mr. Coots: "I have read the article in the morning papers, and I think it is a political move to fight Mr. Mount over my shoulders. I think that if the writer of that article had taken the trouble to investigate the facts he could never have made a statement so wide of the truth.

"Because I have not made a howl through the papers about matters pertaining to the hospital work, as was done before I took charge of it, I suppose he thinks that nothing is going on; that no work is being done. I give all of my time that is necessary to supervising the work, and to seeing that it is done according to plans and specifications, and must say that the work is being done satisfactorily, and will be completed within a month or six weeks. As far as my appointment is concerned, it was made by Mr. Myers, and I only consented to serve as superintendent after being recently requested to do so by the commissioners, and contractors for the work, and I don't think that politics had anything to do with it."

The Greatest of All.

It is confidently expected the combined attractions in Omaha during fair week will bring 25,000 to 50,000 strangers to the city every day, from the opening day to the close. Every preparation is being made to receive the visitors, and they will be well repaid for taking the trip. Omaha can take care of them, so let everybody come and have a good time. The fair and merchants' week at Omaha this year far overshadows anything ever attempted before in the west. Come, or you will miss half your life.

No Motor on Lowe Avenue.

The proposed motor line to run north on Lowe avenue from Mercer avenue is still hanging fire owing to the opposition of certain persons living on Lowe avenue to having the grade cut down. Old residents of Walnut Hill favor the proposed grade, among whom are Messrs. Howard, Stuart and Taylor and in fact 35 per cent of the people living in that portion of the city and beyond. A committee of appraisers has gone over the proposed route and reported no damages and all the pioneers of that section are anxious for the improvement, only a few newcomers opposing it.

The Omaha Motor company has notified the chief of police that police officers in uniform will be allowed to ride free on the motor lines in the city limits, but will be required to pay fare between Omaha and Council Bluffs. The company asks that the police protect it on Sunday nights from drunken roughs, who have been causing trouble.

A Big Deal.

A syndicate of Omaha gentlemen, headed by P. O. Brown, has purchased nearly two blocks of ground immediately east of the base ball park, in Miller & Colville's addition, which will be a six-story building, costing not less than \$35,000, each, will be erected at once. Work has already been commenced on the foundations and it is the intention of these people to have many of the buildings ready for occupancy as possible before the advent of winter weather.

For diarrhoea, dysentery and cholera morbus take Mihalovitch's Hungarian blackberry juice.

It Was a Mistake.

The Bee of Friday, August 16, contained a special from North Platte in which the statement was made that Mr. M. C. Keith, the oldest and wealthiest citizen of that city, a man of sixty-five, would shortly wed Miss

Joie Parker, a young lady of twenty-one. Mr. Keith is in Omaha, and asks that the story be denied. He says that there is absolutely no foundation for the report, and that while the young lady in question is a friend, there is no more chance of a wedding between the pair than there is of the sun rising in San Francisco. Mr. Keith asserts that the publication has caused the young lady and himself no little annoyance.

Mr. Ralph Elkins lives in Marionville, Mo., and is a successful farmer. He says that he has been a great sufferer from impurities of the blood, which made his limbs stiff and gave him pain in the lungs; but he took Swift's Specific, and it soon relieved him entirely.

We have sold Swift's Specific for six years in quantity lots, and the goods have been entirely satisfactory, and without a complaint from a single customer.

A SEVENTH REUNION.

Large Gathering of Nasons in Erie County, Pennsylvania.

W. N. Nason returned yesterday from Erie, Pa., where he attended, last Thursday, a reunion of the Nason family. In its report of the matter the Erie Dispatch says there were ninety-two persons belonging to the family present, besides many visitors. Among other references it makes the following:

"Of course the reunion was at its best when the company, gathered around the festive board, had gotten itself ready for the feast of reason that is to follow. The prayers of the material man have been supplied. There were talking members present and they succeeded admirably in pleasing their audience. The material man of the day, and a rattling good speech he made on Nebraska. Dr. A. W. Nason and wife of Omaha and Miss Nason of Omaha were also present. The seventh reunion will not be soon forgotten by the members of the Nason clan who had the good fortune to participate in it."

A. P. Williams, of Watertown, Dak., is at the Paxton. He is here for the purpose of organizing a party of Omaha and Council Bluffs business men to go to that thriving little northern city and investigate its many advantages and resources for the investment of capital. The Northern Pacific is fully convinced that the capital of Southern Dakota will be located there, and

of course, are more or less jubilant over their prospects of becoming the metropolis of the extreme northwest. Watertown can really boast of many superior attractions, they have natural gas, insuperable business enterprise, one of the finest lakes on earth, and other advantages too numerous to mention. W. A. Vanicop, of this city, is prominent in organizing the local party of inspection, and will leave here tomorrow via the Northwestern, and reach Watertown about noon the following day.

REDUCED PRICES.

This week will positively close out the balance of our summer suits. Fall goods are coming in and room must be made for them. We have a few extra fine light weight suits for dress and business wear which we are ready to sacrifice. They are made of the choicest fancy worsteds and gotten up in A No. 1 style. No custom garment can beat them. They are suits for which merchant tailors would charge from \$40 to \$50. We have reduced them to less than the material in them is worth. It will be money in your pocket if you will avail yourself of this opportunity. These reductions hold good also in our boys' department. We are offering a lot of extremely fine boys' and childrens' suits at prices—you could not buy them a month ago for double the money.

In our furnishing department we have every day one thing or the other to close out. Today its a little line of underwear, tomorrow a small lot of flannel shirts, of which the sizes are broken, etc. On all such goods we make prices which will tempt you into buying whether you need the goods or not.

We call particular attention to this department to several lots of Night Shirts which we are offering extremely low. One lot very good Shirts, plain and also fancy fronts and collars, at 50c. Another very fine Shirt, with elegant embroidered front and collar, at 80c.

In our Hat Department we are now opening our new Fall shapes. We have during the past few days made alterations which give us more room, and our Hat Department holds now the stock of two good sized local hat stores. We have a bewildering variety of Derbys and Soft Hats, and in prices the hat stores fall far behind us. No fictitious values on our Hats. You don't pay anything for a "swell" name in the lining. We sell you good dependable qualities, fashionable shapes and colors, at about one-half the prices hat stores charge you for like qualities.

Please Note: Until September the first our store closes at 6:30 p. m. Saturday at 10 p. m.
